NRX100 Series Portable Breathing Air Compressor

Features and advantages

NRX100 Series is a portable breathing air compressor. It has compact structure, light weight and high reliability. This series is widely used in firefighting, diving, paintball shooting, rescue, etc. The models are available with three-phase motor, single-phase motor or petrol engine, which can meet different application needs.

Features

- Air quality complies with EN12021
- CE, CCS, ISO9001 certificates
- Main engine adopts 4 stage compression
- The motor has overload, overheating and low voltage protection
- Providing 225 Bar/330 Bar filling pressure for options
- Cooling method: air cooling
- Automatic stop is optional
- Automatic condensate drain is optional

Technical Data

Model	NRX-100IS	NRX-100I	NRX-100IG
Charging rate (L/min)	100	100	100

Note: Motors with different voltages of 50HZ or 60HZ can be customized.

NRX120 Series Portable Breathing Air Compressor

Features and advantages

Product Introduction

NRW120 Series is a portable breathing air compressor. It has compact structure, light weight and high reliability. This series is widely used in firefighting, diving, paintball shooting, rescue, etc. The models are available with three-phase motor, single-phase motor or petrol engine, which can meet different application needs.

Features

- Air quality complies with EN12021
- CE, CCS, ISO9001 certificates
- Main engine adopts 3 stage compression
- Equipped with high-strength fan and belt protective cover
- The motor has overload, overheating and low voltage protection
- Providing 225 Bar/330 Bar filling pressure for options
- Cooling method: air cooling
- Automatic stop is optional

NRX150 Series Portable Breathing Air Compressor

Technical Parameters

Product Introduction

NRW150 Series is a portable breathing air compressor. It has compact structure, light weight and high reliability. This series is widely used in firefighting, diving, paintball shooting, rescue, etc. The models are available with three-phase motor, single-phase motor or petrol engine, which can meet different application needs.

Features

- Air quality complies with EN12021

NRW200/265/300 Series Air Compressor

Technical Parameters

Product Introduction

NRW200/265/300 series air compressor has relatively light weight and small size which allows mobility and portability. It's equipped with two filling hoses and two filling valves, which can simultaneously inflate two cylinders to improve efficiency. It's applicable for use in firefighting, diving, chemical, mining, rescue, etc. This series can be driven by three-phase motor or gasoline engine to meet different application needs.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 3 stage compression design
- Intelligent digital pressure controller for automatic start/stop
- The motor has overload, overheating and low voltage protection
- Providing 225 Bar/330 Bar filling pressure for options
- Cooling method: air cooling
- Automatic timing for working
- Automatic stop is equipped
- Automatic start is optional
- Automatic condensate drain is optional

Technical Data

Model	NRW200	NRW265	NRW300
Charging rate (L/min)	200	265	300

NRW12/18/24 Series Portable Breathing Air Compressor

Features and advantages

Product Introduction

This series air compressor adopts compact frame structure design and microcomputer intelligent control. It's applicable for use in fire fighting, diving, chemical, mining, rescue, etc. This series can be driven by three-phase motor, single-phase motor or gasoline engine to meet different application needs.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 3 stage compression design, 2nd and 3rd stage oil-water separation
- Cooling method: air cooling
- Lubrication method: Splash lubrication
- Microcomputer intelligent control is optional
- Final stage double filter cartridges is optional
- Automatic condensate drain is optional
- Functions: emergency switch, automatic start, automatic stop, phase sequence protection, filter expiration reminder, etc

Technical Data

Model	NRW12	NRW18	NRW24

NRW12-G/18-G/24-G Series Breathing Air Compressor

Features and advantages

This series air compressor adopts compact frame structure design. This series is widely used in firefighting, diving, chemical, mining, etc. The models are available with three-phase motor, single-phase motor or petrol engine, which can meet different application needs.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 3 stage compression design, 2nd and 3rd stage oil-water separation
- Cooling method: air cooling
- Lubrication method: Splash lubrication

NRX680/720/810 Series Stationary Compressor

Features and advantages

This series is a stationary, automatic and silent air compressor, which has fully enclosed structure and low noise. It's applicable for use in firefighting, diving, chemical, mining, rescue, etc. This series is driven by three-phase motor.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 4 stage compression design
- Cooling method: air cooling
- Lubrication method: oil pump
- PLC intelligent control
- Functions: emergency switch, automatic start, automatic stop, automatic condensate drain, low oil level protection, phase sequence protection, filter expiration reminder, etc

Technical Data

NRX400/450 Series Stationary Automatic Compressor

Features and advantages

Product Introduction

This series is a stationary, automatic and silent air compressor, which has fully enclosed structure and low noise. It's applicable for use in firefighting, diving, chemical, mining, rescue, etc. This series is driven by three-phase motor.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 4 stage compression design
- Cooling method: air cooling
- Lubrication method: oil pump
- PLC intelligent control
- Functions: emergency switch, automatic start, automatic stop, automatic condensate drain, low oil level protection, phase sequence protection, filter expiration reminder, etc

NR300A/400A Series Silent Air Compressor

Technical Parameters

Product Introduction

This series is silent high-pressure air compressor, which has fully enclosed structure and low noise. It's applicable for use in firefighting, diving, chemical, mining, rescue, etc. This series can be driven by three-phase motor or single-phase motor.

Features

- Air quality conforms to EN12021
- CE, CCS, ISO9001 certificates
- 3 stage compression design
- Cooling method: air cooling
- Microcomputer control panel with Chinese/English languages
- Functions: emergency switch, automatic start, automatic stop, automatic condensate drain, low oil level protection, phase sequence protection, filter expiration reminder, etc

Technical Data

Model	NR300A	NR400A
Charging rate (L/min)	300	400
